## MAYOR'S REPORT

---

It is my privilege to submit the draft budget for the 2014/2015 financial year.

The draft budget was compiled under challenging circumstances. Council was challenged with a very difficult period, where regular council meetings did not take place, vacancies in senior positions existed for the whole of the current financial year and important decisions were delayed. Against this background and a very challenging economic period, we still succeeded to deliver services at an acceptable level.

We have also managed to obtain an unqualified audit report for the previous year.

The draft budget is tabled and will be available for comments and further input through a process of community consultation, before approval.

While taking into account of the constrained fiscal environment, we continue to support Government's commitment to broadening service delivery and expanding investment in infrastructure.

There are certain challenges, but this budget will take us forward and we will be committed to address and resolve the major challenges such as meter-tampering and the community at large will have to co-operate in dealing with this challenge.

Should we fail to stop these unlawful practices, it will result in cash flow problems with a detrimental effect on service delivery.

Council will have to apply all efforts to resolve these challenges before much progress could be made in addressing other challenges like improved service delivery and meeting the needs of the community.

We all are very aware of the demands for increased service delivery, as much as we are aware of the fact that the needs will always be more than the resources to satisfy those needs.

We will just have to continue applying more wisdom in spending patterns and choices to be made on spending of available funds. Non-essential spending must be curbed.

The draft budget once again was compiled with due consideration of the IDP, with one of the main priorities being the financial sustainability of Endumeni. Our strategy remains to provide core infrastructure and reliable services at affordable tariffs for our community and to improve the standard of living of all people of Endumeni.

T M MAHAYE

MAYOR: ENDUMENI

## ENDUMENI MUNICIPALITY – DRAFT BUDGET 2014/2015 - EXECUTIVE SUMMARY

### 1. BACKGROUND AND PROCESS

The budget process started with approval of the Budget Process Plan by Council on 29 August 2013. Inputs and requests were received from the various departments and consolidated by the Budget and Treasury Department.

For the past few years budgets were compiled in the context of the global difficult economic conditions. Although there are signs that growth will begin to accelerate over the medium term, the difficult conditions normally impact more severely on smaller municipalities where economic conditions take more time to recover. We therefore need to maintain firm control over expenditure. Development is a long-term project that must be financially sustainably.

#### Operating Budget

With the compilation of the draft budget there are numerous requests for expenditure that could not be included in the draft budget. The reasons for this can be attributed to the following:

Gain on disposal of assets:

In the budget for the current financial year the amount of R 8 150 000 was included as gain on the disposal of assets, being the sale of property:

Plots in Craigieburn for	R 5 000 000 and
Sale of municipal houses for	<u>R 3 150 000</u>
Total	R 8 150 000.

This revenue could not materialise due to the provision of infrastructure for Craigieburn costing much more than was anticipated and provided for in the budget. The sale of municipal houses was put on hold and could not be finalised due to the fact that regular council meetings were not held.

The revenue budgeted is non-recurring, which leaves us with a lower base-line of revenue from which we depart for the coming financial year. This was also discussed in the adjustment budget.

#### Theft of electricity

Apart from the loss of revenue caused by the theft of electricity (meter-tampering), we now have to budget for the cost to engage a company in the auditing of meters in Endumeni. The loss of revenue due to electricity theft is dealt with in more detail under the heading challenges.

Provision for the cost of engagement of a meter-auditing service provider as provided for in the operating budget for 2014/2015 amounts to R 1 275 000.

#### Other matters

A further amount of R 672 000 was provided for the cost of an acting Municipal Manager for a period of six months, which amount may have to be reviewed when compiling an adjustments budget for 2014/2015.

Due to finality not reached on the sale of municipal houses and the pending matter referred to the Housing Tribunal by the occupants of the houses, an equal amount to the revenue from rent had to be provided for maintenance as a first phase to renovate the houses, the

## ENDUMENI MUNICIPALITY – DRAFT BUDGET 2014/2015 - EXECUTIVE SUMMARY

condition of which has deteriorated during the past few years pending the sale of these properties.

Provision was made for revenue from the gain on disposal of assets (the sale of Craigieburn properties) at an estimated 50% of the value of these properties.

### Capital budget

The needs identified for capital projects were reviewed more than once. The capital budget amounts to R 35 515 573, which amount includes R 1 500 000 for the installation of water infrastructure for the Craigieburn-area intended to be sold and counterfunding on MIG projects in the amount of R 5 106 791.

Detail of projects forms part of the annexures in the budget document.

## 2. CHALLENGES

The main challenges for Endumeni can be summarised as follows:

### 2.1 VACANT SECTION 57 POSITIONS

Since the Section 57 positions became vacant during June 2013, the responsibility of management rested on acting managers. These managers have put much effort in managing the departments to the best of their abilities, however senior management was not operating at full capacity. This was due to non-functioning of Council, which delayed decisions, as well as various vacant senior level positions which could not be filled. This resulted in extreme pressure on the acting managers.

### 2.2 METER TAMPERING (THEFT OF ELECTRICITY)

The loss of revenue from electricity services due to theft by means of tampering with electricity meters for the first eight months of the current financial year is calculated as follows:

kWh purchased	64 001 919
kWh sold	<u>44 962 044</u>
Loss	19 039 875
Calculated distribution loss-kWh	<u>5 120 154</u>
Calculated loss due to theft-kWh	13 919 721

Value of loss due to theft R 14 289 417

% Loss due to theft	Dundee	10.28%
	Sibongile	47.95%
	Glencoe	8.06%
	Sithembile	78.98%

Due to the challenges Endumeni Municipality experienced during the past months, the proposed plan of action submitted by senior management could not be implemented. Bids were invited to once again outsource the meter auditing and some incentives to resolve this matter will now be considered at the council meeting scheduled to be held on Thursday 3 April 2014.

The situation can not be allowed to continue. The bottom line is that if the same trend as for 2013/2014 continues, the revenue loss due to the meter tampering / theft of electricity as at end February 2014 (estimated at R 14 289 417) will escalate to R 23 291 750 by the end of this financial year.

If the situation is allowed to continue, this amount will escalate to R 25 155 090 in the 2014/2015 year due to the proposed tariff increase of 8% only.

Had this situation been stopped, the challenges to compile the budget for 2014/2015 would have been much less. The impact of theft of electricity becomes more clear when the summary of the budget is discussed.

The reality is that theft of electricity will eventually cause a major cash flow crisis if not stopped urgently.

Ward councillors and members of ward committees, with the help of the Communication Section, must play a significant role in creating community awareness of the impact of these practices.

The political will to have the situation rectified will be vital in solving the problem.

### 2.3 NON-PAYMENT FOR RATES AND SERVICES

The rate of non-payment for rates and services leads to the need for a high provision for bad debt. The contribution to the bad debt reserve for 2014/2015 is calculated at R 6 707 026. This contribution again has to be financed.

### 3. TARIFF PRINCIPLES

In funding the operational budget, the following criteria provide a good indication of the various levels to which the tariffs for individual services should be adjusted:

#### -Trade services

Services such as electricity are classified as trade services, where tariffs should be determined in a way that will ensure that the service is delivered at a surplus.

#### -Economic Services

A service such as refuse removal is classified as an economic service. Tariffs should be set at a level to ensure that expenditure is recovered and that there is at least a break even.

#### - Subsidised services

These are services not classified as Trade or Economic Services and funded from sundry revenue and revenue obtained from property rates.

### 4. TARIFF INCREASES

Having consideration of the difficult economic realities of consumers and also the necessity to ensure sustainability, it would be necessary to increase certain tariffs to fund the expenditure provided for in the budget.

#### **Rates:**

The rates randage is proposed to be increased by 8%.
